First and last name
printed block initials

If adulteration is suspected, the UPL will secure the specimen, order the Soldier to stand fast, and send someone to notify the commander. When the commander verifies the evidence of a possible adulteration and after consulting the supporting legal advisor, they may immediately pursue testing the Soldier under "PO" with the collection being observed by a different observer. A second specimen will be submitted for testing on a separate DD Form 2624. The first specimen will be submitted and the circumstance written on the unit ledger.

All unusual circumstances will be written on the unit ledger
a. If the Soldier does not have an ID card in their possession, the commander (or first sergeant or section sergeant) will positively identify the Soldier and verify the Soldier's SSN against a reliable personnel roster or record. The UPL will write that the Soldier had no ID card and how the ID was verified in the "Remarks" section of the unit ledger.

If less than 30 mL of urine is collected, the entire specimen will be discarded and the specimen bottle will be destroyed by crushing (after obliteration of the SSN on the specimen bottle label). The Soldier will be sent back to the holding area until they can provide a full specimen. When the Soldier is ready to provide a specimen, the UPL will hand write a new label and place it on the bottle after the Soldier initials the label. The unit ledger must be annotated in the "Remarks" section of the unit ledger that a second specimen was collected.

If a Soldier refuses to provide a specimen, the appropriate command authority will be notified. The Soldier's chain of command should give the Soldier a direct order to provide a specimen. If the Soldier refuses, it will be a violation of a direct order, which may subject the Soldier to disciplinary action.
