CDDP What is it?

- *The CDDP combines policy and doctrinal deployment requirements under one program to enable commanders at all levels to maintain their organizations at their appropriate deployment readiness posture to meet Army mission requirements.*
- *The CDDP can evaluate deployment readiness and execution tasks. It is not intended to be solely an inspection program. Rather, commanders are expected to use the program to perform the following:*
 - *Gain familiarity with established policy.*
 - *Enforce compliance with policy by subordinate personnel.*
 - *Understand the skill sets a unit needs to deploy and redeploy.*

AR 525-93 Overview

- ***Re-establishes the Army Deployment Readiness Exercise Program (chap 3).***
- ***Establishes the Command Deployment Discipline Program (chap 4).***
- ***Outlines responsibilities and evaluation process for the Deployment Excellence Award Program (chap 5).***
- ***Establishes Army deployment and redeployment policies and delineates roles, responsibilities, command relationships, and authorities for deployment and redeployment planning and execution (throughout).***

Implementation – Frequency AR 525-93

- Senior mission commander or division commanders and below will establish a policy stating the implementation of CDDP in their organizations. The policy, at a minimum, will establish roles/responsibilities, *the frequency of deployment training events, and the mechanisms for annual deployment readiness evaluations* for their units or subordinate units. The following should also apply:
 - Each commander provides the personal interest and direction necessary to establish an effective CDDP.
 - Supervisors utilize the requirements listing in the normal performance of their duties.
 - Whenever an applicable requirement within the requirements listing cannot be completed, the immediate higher headquarters must be notified by the affected organization.
 - **Organizations will have a formal evaluation of deployment readiness tasks annually.**

ATP 3-35 Overview

- *Details Deployment and Redeployment Planning and Operations*
- *Details movement activities for various major modes of movement*
- *Outlines responsibilities*
- *Describes RSOI – Reception, Staging, Onward Movement, Integration*
- *Outlines Joint and Army automation tools which support deployment and redeployment operations and the JOPP (Joint Operational Planning Process)*

CALL CDDP #15-01 Overview

Following 13 years of conflict, our Army is transitioning to an expeditionary force that is primarily based in the continental United States. Many of our Army's junior leaders, having become accustomed to rotationally deploying in support of Operation Iraqi Freedom/Operation New Dawn and Operation Enduring Freedom (Afghanistan), have limited experience in executing short-notice deployments. Deployments in the recent past have been characterized by units receiving equipment in theater rather than deploying all of their organic equipment from home station, as well as the robust use of contractors throughout the deployment and reception, staging, onward-movement, and integration process. In many cases, the fundamental skills required to execute short-notice deployments involving all of a unit's organic equipment have atrophied over the past years.
