## IDT / AT Date Changes

### Why is this important:

- CMD Group schedules events based off of these calendars
- MARRS-N is the basis for NGB funding to the Training Centers
- Submit any IDT/AT changes to the Yearly Training Calendar (YTC) thru your BN for approval.
- Approved IDT / AT dates - ( Training Calendar).
- Submit changes on memorandum.

## IDT / AT Plan Submission

- NGB funding models are derived from MARRS-N entries to include collective training
- Companies enter where they are going and what they are doing including transportation costs
- Inaccurate data may mean less funding for the state and your unit

## Synchronization

- The end state is to have approved IDT/ AT dates, ammunition forecasts, and RFMSS data entries made NLT 1 May 20xx

## What Should I Do When I Leave Here From J3-T's Foxhole

- Annually:
  - Participate in the Annual AT/IDT input into MARRS-N (Annual training Plan)
- Monthly:
  - School attendance, cancellations
  - DMOSQ (train them or move them)
  - DLC progress
  - NCOPDS progress
  - OES progress
