BRIEF JOB DESCRIPTION:

The JOC operates 7 days a week with a rotating shift schedule.

- a) Must be prepared to be on call 24/7. When not on leave or pass, must be able to report to the unit on short notice to support dynamic mission requirements within the Joint Operations Center (JOC).
- b) Manages the visual display of the Common Operational Picture (COP), ensuring it is free of clutter and accurately reflects the current operational picture as directed by the Battle Major or Asst CHOPS.
- c) Works directly with all JOC sections (J2, J33, J4, GIS, LNOs) to pull relevant data feeds, graphics, and friendly force tracking information for display on the COP.
- d) Serves as the primary hands-on operator for the software and hardware associated with the JOC's main visualization screens. Must be highly proficient with Microsoft applications, specifically PowerPoint and Teams, to facilitate command briefings and internal communications. Additionally, maintains a practical working knowledge of Power BI and Power Apps to navigate platforms and manage daily data visualization workflows.
- e) Enforces established standards for map graphics and military symbology (MIL-STD-2525) to ensure that all displayed information is clear, uniform, and easy to understand.
- f) Supports all JOC briefings by manipulating the COP display in real-time to highlight specific information, zoom to areas of interest, and sequence graphics as requested by the briefer.

g) Serves as the designated backup for the GIS section to ensure operational continuity. Cross-trains on core GIS duties to accomplish the following:

- (1) General spatial data management and basic data entry.
- (2) Generation of custom map products.
- (3) Utilizing GIS software functionality to support JOC operations when primary GIS personnel are unavailable.

Demonstrate prior experience working within a Tactical Operations Center or similar fast-paced tactical environment. Candidates must show practical proficiency with Microsoft applications (including PowerPoint, Teams, and Power BI), basic GIS software, and MIL-STD-2525 mapping symbology to effectively manage the Common Operational Picture.
